

HJWSD monthly meeting 2/14/2024

Call to order 1330

Motion by Sessions to approve minutes a written – unanimous.

Chris – County budget due end of February
-.5million in Arpa funds
What is the timeline?

Bob – level 2 done in April as scheduled

September 1 application for Level 3 funding. Meeting in Casper in November 14 for Level 3 funds. 3 grants to apply for. Level 3 falls in two categories, design and construction. Will need to match funds for federal grants, that is local funds raised(county, private, POWJH) What amount do we want to ask for from the county? Need to know how much we are asking for and what the match needs to be.

The sewer is on the intended use funds. Does this need to stay on the list?

Nelson Engineering –

Powjho – 1. Pow jh should shift emphasis to help HJWSD.
2. it would help do studies for water and sewer farther north.

Embryotic strategic plan: water delivery within 5 years
Sewer within 10 years
Public process be initiated for future development for Hoback
Lewis/Ravitz land becomes public for recreation

Good discussion on above

Motion adjourned at 1422

How much has Lamure paid to Nelson?

Does the county still have the money?
